

# Fight • Protect • Innovate

## Participation Guide

**Dear Digital Transformaker,**

**You've heard the call from Jana that may take you to the CES of Las Vegas. Jana worked on developing the FuturCamp project, a project that will revolutionize the future of the campus.**

**Unfortunately, malicious hackers have heard about this project and want to steal it. They kidnapped her, but she managed to escape and hide the project on the Devocamp server in a room in the basement of the Campus.**

**Your mission is to prevent hackers from entering the campus and stealing the data from the server. Once this first mission is accomplished, the ultimate challenge will be waiting for you: a team work on a case study that will possibly allow you to win a trip to Las Vegas and places for the CES, (Consumer Electronic Show) organized by the Consumer Technology Association which will be held from January 9 to January 12, 2018.**

### TO PARTICIPATE

1. Establish a team of 2 to 6 people then go to this address: [www.devogame.devoteam.com](http://www.devogame.devoteam.com).
2. Register your team.
3. Solve the 6 enigmas on the site in the time allotted (less than 60 minutes). These enigmas will appeal to your logic, your sense of observation and your knowledge. You will have 3 lives. If you make a mistake on one of the riddles, you will lose a life. You will have a joker throughout the game to help you with any of the enigmas. Throughout your mission, you can earn badges that will allow you to get extra points for the final.

List of badges:

- Building a team
- Sharing the game on social media
- Best Time (if you complete the game in less than 30 minutes)
- Devoteam Exhibition (if you visit a stand Devoteam at one of the student fairs - if Devoteam does not participate in a school forum in your country (Germany and Holland), you can get your code directly by going to the Devoteam office).
- Group work (committing yourself into doing the group project)
- Submitting your project
- Finalists (be one of the 8 shortlisted teams)
- Votes on the project (min 1000 votes)
- Winner

The 8 first badges will account each for 0,1 point in the final notation and will account for 5% of the final notation.

4. If you complete all 6 enigmas in the required time, you will receive the Team Work Brief. Work on your proposal and submit it on the site in video format, prezi or PPT before November 19 (presentation in the language of your country).

5. A jury of professionals will select the 8 best projects (2 projects for each participating country)

6. The public can then vote for the project they want to win. For each vote received, Devoteam will give 1 € to an association chosen by the participating team at the time of submission of its project. Only the total raised by the winning team will be donated.

7. Finally, a final in Paris on the 15<sup>th</sup> of December will confront the 8 teams finalists (presentation in English).

## TO WIN

**1<sup>st</sup> prize:** a trip to Las Vegas and tickets to the CES for you and your team

**2<sup>nd</sup> prize:** technology prizes worth €300 for each team member

**3<sup>rd</sup> prize:** technology prizes worth €150 for each team member

So, are you ready to take on the challenge? Hurry up! The hackers are closing in...
